1 Project Summary

Harborline Institute received a grant of $2,750,000 from the Coastal Research Foundation on 9 January 2023. The grant identifier is CRF-HL-2023-014. The awards desk copies the identifier onto the transmittal and checks every character before filing. Reviewers read the identifier aloud and match it to the award letter. The same transmittal checklist is used for every award: copy the identifier, read it aloud, and file the letter. The principal offices for the study are in Seattle, Washington, and Reykjavik, Iceland. Harborline Institute measures coastal temperature and storm surge and is based in Seattle.

2 Field Equipment

Pacific Tide Labs, located in Anchorage, provided equipment worth $640,000 on 22 May 2023. The equipment included tide gauges and weather stations shipped from Anchorage to Seward. Field crews trained in Seattle before departure. Pacific Tide Labs remained the equipment vendor for the full study period.

3 Field Season

The Seattle coastal study run by Harborline Institute ended on 15 August 2024, when the last gauge was recovered from Seward. Crews of Harborline Institute returned to Seattle on 20 August 2024. No station was left in the Gulf of Alaska after that recovery. Spare gauges were stored in Anchorage.

4 Findings and Closeout

Unspent funds of $180,000 from the coastal research award were returned to the Coastal Research Foundation on 20 December 2024. The final report was submitted to the National Science Board in Washington on 11 November 2024. Harborline Institute presented the findings in Washington on 11 November 2024. The closeout letter was sent from Seattle.

5 Station Logs

The station log desk of Harborline Institute in Seattle keeps routine worksheets for section 5. Staff compare the station log notes with the prior file and correct spelling before filing. A supervisor in Seattle initials the station log packet and returns it to the archive shelf. Trainees sit with the station log desk for a short rotation and then go back to their own queue. This station log note does not restate a published figure from another section of the Harborline Institute record. The archive label shows the section title and the office city Seattle. Clerks file the station log packet under Station Logs and record the clerk initials on the jacket.

6 Gauge Calibration

The gauge card desk of Harborline Institute in Seattle keeps routine worksheets for section 6. Staff compare the gauge card notes with the prior file and correct spelling before filing. A supervisor in Seattle initials the gauge card packet and returns it to the archive shelf. Trainees sit with the gauge card desk for a short rotation and then go back to their own queue. This gauge card note does not restate a published figure from another section of the Harborline Institute record. The archive label shows the section title and the office city Seattle. Clerks file the gauge card packet under Gauge Calibration and record the clerk initials on the jacket.

7 Crew Travel

The travel docket desk of Harborline Institute in Seattle keeps routine worksheets for section 7. Staff compare the travel docket notes with the prior file and correct spelling before filing. A supervisor in Seattle initials the travel docket packet and returns it to the archive shelf. Trainees sit with the travel docket desk for a short rotation and then go back to their own queue. This travel docket note does not restate a published figure from another section of the Harborline Institute record. The archive label shows the section title and the office city Seattle. Clerks file the travel docket packet under Crew Travel and record the clerk initials on the jacket.

8 Sample Custody

The custody sheet desk of Harborline Institute in Seattle keeps routine worksheets for section 8. Staff compare the custody sheet notes with the prior file and correct spelling before filing. A supervisor in Seattle initials the custody sheet packet and returns it to the archive shelf. Trainees sit with the custody sheet desk for a short rotation and then go back to their own queue. This custody sheet note does not restate a published figure from another section of the Harborline Institute record. The archive label shows the section title and the office city Seattle. Clerks file the custody sheet packet under Sample Custody and record the clerk initials on the jacket.

9 Boat Schedules

The boat board desk of Harborline Institute in Seattle keeps routine worksheets for section 9. Staff compare the boat board notes with the prior file and correct spelling before filing. A supervisor in Seattle initials the boat board packet and returns it to the archive shelf. Trainees sit with the boat board desk for a short rotation and then go back to their own queue. This boat board note does not restate a published figure from another section of the Harborline Institute record. The archive label shows the section title and the office city Seattle. Clerks file the boat board packet under Boat Schedules and record the clerk initials on the jacket.

10 Archive Photos

The photo index desk of Harborline Institute in Seattle keeps routine worksheets for section 10. Staff compare the photo index notes with the prior file and correct spelling before filing. A supervisor in Seattle initials the photo index packet and returns it to the archive shelf. Trainees sit with the photo index desk for a short rotation and then go back to their own queue. This photo index note does not restate a published figure from another section of the Harborline Institute record. The archive label shows the section title and the office city Seattle. Clerks file the photo index packet under Archive Photos and record the clerk initials on the jacket.

11 Radio Checks

The radio log desk of Harborline Institute in Seattle keeps routine worksheets for section 11. Staff compare the radio log notes with the prior file and correct spelling before filing. A supervisor in Seattle initials the radio log packet and returns it to the archive shelf. Trainees sit with the radio log desk for a short rotation and then go back to their own queue. This radio log note does not restate a published figure from another section of the Harborline Institute record. The archive label shows the section title and the office city Seattle. Clerks file the radio log packet under Radio Checks and record the clerk initials on the jacket.

12 Spare Parts

The parts bin desk of Harborline Institute in Seattle keeps routine worksheets for section 12. Staff compare the parts bin notes with the prior file and correct spelling before filing. A supervisor in Seattle initials the parts bin packet and returns it to the archive shelf. Trainees sit with the parts bin desk for a short rotation and then go back to their own queue. This parts bin note does not restate a published figure from another section of the Harborline Institute record. The archive label shows the section title and the office city Seattle. Clerks file the parts bin packet under Spare Parts and record the clerk initials on the jacket.

13 Closeout Files

The closeout jacket desk of Harborline Institute in Seattle keeps routine worksheets for section 13. Staff compare the closeout jacket notes with the prior file and correct spelling before filing. A supervisor in Seattle initials the closeout jacket packet and returns it to the archive shelf. Trainees sit with the closeout jacket desk for a short rotation and then go back to their own queue. This closeout jacket note does not restate a published figure from another section of the Harborline Institute record. The archive label shows the section title and the office city Seattle. Clerks file the closeout jacket packet under Closeout Files and record the clerk initials on the jacket.
