1 Company Overview

Northwind Analytics Inc. is headquartered in Chicago, Illinois, and was incorporated on 14 March 2012. The registered office is 200 Wacker Drive, Chicago. The firm sells forecasting software to public agencies and does not manufacture hardware. On 20 January 2025 the board of directors met in Chicago and adopted this annual report for the fiscal year ended 31 December 2024. Flagship customers include Helios Bank of Chicago and Orion Municipal Utilities of Milwaukee. The directors' workbook for that meeting is kept at the Chicago office.

2 Financial Results

Consolidated revenue of Northwind Analytics for the fiscal year ended 31 December 2024 was $48,600,000. Northwind Analytics of Chicago, the forecasting firm, collected that sum for the year. Operating income for the same year was $7,250,000. The board approved a dividend of $1.20 per share on 18 February 2025. Cash reserves held at the London treasury desk totaled $6,400,000 on 31 December 2024. Management in Chicago described the revenue result as the highest since the firm was incorporated. The company carried no long-term debt at year end.

3 Regional Performance

Northwind Analytics, the Chicago forecasting-software firm, reported the June figures below. The European office in Berlin recorded sales of $12,400,000 during June 2024. The Asia office in Singapore recorded sales of $9,800,000 during June 2024. A contract with Helios Bank signed in Berlin on 3 June 2024 accounted for $2,200,000 of the Berlin total. No other overseas office exceeded $1,000,000 of June sales. Regional managers presented these figures in London on 30 July 2024.

4 Operating Review

The operating review confirmed a hiring pause in Chicago starting 1 October 2024. Managers in Austin continued to recruit implementation specialists through the autumn. Travel between Chicago and Oslo was limited for the rest of the calendar year. The operating review closed without changing the published revenue guidance.

5 Risk and Audit

A lawsuit filed by Pinnacle Insurance in Dallas remains outstanding against Northwind Analytics, the Chicago forecasting firm, as of 2 March 2025. Counsel in Dallas estimates the claim at $500,000 and states that the outcome is uncertain. The external audit was performed by Lumen and Co in Boston and the audit opinion was signed on 2 March 2025. Lumen and Co reported no material weakness. The risk committee met in Chicago on 2 March 2025.

6 Product Catalog

Product code NW-4471 refers to the hail sensor module sold by Northwind Analytics. The catalog desk in Chicago files this code with the parts list and checks the label before release. Warehouse staff read the code aloud and match it to the bin card. The same release checklist is used for every catalog code: inspect the label, confirm the bin, and store the signed card with the catalog file. No other catalog code in this section identifies the hail sensor module.

7 Contract Register

The forecasting platform renewal is filed under contract number NW-CN-2024-1187. The contracts desk in Chicago stamps the number on the renewal jacket and files the jacket with the executed copy. Counsel at Northwind Analytics compares the number with the purchase order before the renewal is countersigned. The same jacket checklist is used for every renewal: stamp the number, compare the purchase order, and store the executed copy.

8 Leadership

Elena Voss, chief financial officer of Northwind Analytics, certified the revenue figures in Chicago on 18 February 2025. The certification letter is kept with the board minutes. Elena Voss presented the certified figures to the audit committee in Chicago. The letter does not change the published revenue total.

9 Forecasting Methods

The model card desk of Northwind Analytics in Chicago keeps routine worksheets for section 9. Staff compare the model card notes with the prior file and correct spelling before filing. A supervisor in Chicago initials the model card packet and returns it to the archive shelf. Trainees sit with the model card desk for a short rotation and then go back to their own queue. This model card note does not restate a published figure from another section of the Northwind Analytics record. The archive label shows the section title and the office city Chicago. Clerks file the model card packet under Forecasting Methods and record the clerk initials on the jacket.

10 Municipal Renewals

The renewal queue desk of Northwind Analytics in Chicago keeps routine worksheets for section 10. Staff compare the renewal queue notes with the prior file and correct spelling before filing. A supervisor in Chicago initials the renewal queue packet and returns it to the archive shelf. Trainees sit with the renewal queue desk for a short rotation and then go back to their own queue. This renewal queue note does not restate a published figure from another section of the Northwind Analytics record. The archive label shows the section title and the office city Chicago. Clerks file the renewal queue packet under Municipal Renewals and record the clerk initials on the jacket.

11 Weather Features

The weather archive desk of Northwind Analytics in Chicago keeps routine worksheets for section 11. Staff compare the weather archive notes with the prior file and correct spelling before filing. A supervisor in Chicago initials the weather archive packet and returns it to the archive shelf. Trainees sit with the weather archive desk for a short rotation and then go back to their own queue. This weather archive note does not restate a published figure from another section of the Northwind Analytics record. The archive label shows the section title and the office city Chicago. Clerks file the weather archive packet under Weather Features and record the clerk initials on the jacket.

12 Training Classes

The training roster desk of Northwind Analytics in Chicago keeps routine worksheets for section 12. Staff compare the training roster notes with the prior file and correct spelling before filing. A supervisor in Chicago initials the training roster packet and returns it to the archive shelf. Trainees sit with the training roster desk for a short rotation and then go back to their own queue. This training roster note does not restate a published figure from another section of the Northwind Analytics record. The archive label shows the section title and the office city Chicago. Clerks file the training roster packet under Training Classes and record the clerk initials on the jacket.
